

To build Star's glasses cut out the glasses along dotted white lines. If you wish, mounting the print to poster board or card stock first makes the glasses extra-sturdy. Cut slits for the arms on the yellow lines next to each lens. Fold along the blue lines on the arms and insert them through the slits near the lenses. Tape down the folded part of the arms to keep them in place. Put them on and look like a "Star" yourself.

Cut slits for arms along yellow lines.

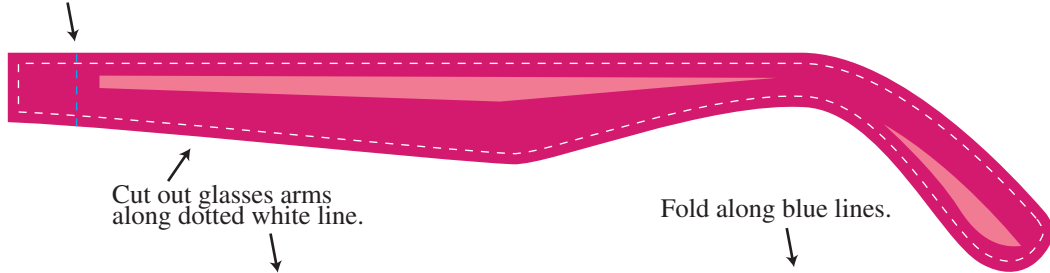

Cut slits for arms along yellow lines.

Cut out glasses body along dotted white line.

Fold along blue lines.

Cut out glasses arms along dotted white line.

Fold along blue lines.
