

Dr. Quirky's Wacky Glasses

To build Dr. Quirky's glasses first cut out glasses along dotted lines. Mount the pieces to poster board or card stock paper as shown in diagram using a spray adhesive or glue. When dry, trim the glasses

again. Fold the arms of the glasses back at the hinges just like a real pair of glasses. There shouldn't be a need

to mount the mustache to board. Just trim and use a strong tape to apply.
