

# Sun Catcher

1. Place a second sheet of paper behind this one. Fold both together down the center dotted line. Be careful to keep the sheets of paper together.
2. Cut out both sheets at the same time along the solid lines. Then unfold each sheet so you have two cutout church buildings.
3. Take one church sheet and glue colored tissue paper behind it to cover the cutout spaces. Be sure not to allow the tissue to go outside the church shape.
4. Hide the tissue between the two church shapes. Line up the windows and outer edge of the church. Then glue the two churches together.
5. Tape or hang over a window.
